Member Module Documentation

Overview	ASP.NET Core controller for full member lifecycle management, filtering, reporting, and course tracking.
Area	Admin
Authorization	AdminAuthorize
Dependencies	IMemberService, IUnitOfWork, IMapper, ICourseService

Controller Actions

Action	Description
Index	Member listing with multi-criteria filtering, pagination, course indicators, AJAX partial loading.
AddEdit (GET)	Load create/edit form, generate member code, populate dropdowns.
AddEdit (POST)	Create or update member, format UAE phone number, validate model.
Delete	Permanently remove member.
Suspend	Toggle member suspension via AJAX.
MemberCourses	Display courses enrolled by a member.
GetCourse	AJAX course details endpoint.

Phone Number Formatting Logic

Code	<pre>entity.PhoneNumber = entity.PhoneNumber?.Replace(" ", ""); if(entity.PhoneNumber != null && !entity.PhoneNumber.StartsWith("971")) entity.PhoneNumber = "971" + entity.PhoneNumber;</pre>
------	--

MemberService Documentation

Overview	Business logic layer for member management, images, code generation, suspension.
Namespace	Application.Services.Admin
Interface	IMemberService
Dependencies	IUnitOfWork, ICompareService

Service Methods

Method	Responsibility
GetAllAsync	Retrieve members with nationality.
GetByIdAsync	Get member with full relations.
AddAsync	Create member, save images, generate code.
UpdateAsync	Update member with conditional image replacement.
DeleteAsync	Delete member and files.
SuspendAsync	Toggle suspension.

Image Save Logic

Code	<code>entity.ProfileImagePath = entity.ProfileImage == null ? "" : await FileHelper.SaveImageAsync(entity.ProfileImage, FileName);</code>
------	---

MemberEntity

Namespace	Domain.Entities
Purpose	Stores all member personal, contact, document, and security data.

Entity Properties

Category	Fields
Basic	Id, Code
Names	FullNameAr, FullNameEn
Identity	IdNumber, IdExpiryDate, DateOfBirth, Age
Contact	PhoneNumber, FatherPhone, MotherPhone
Education	AcademicQualification, EducationInstitution
Profession	ProfessionId, Profession, GuardianProfession
Location	CityId, Address
Social	Facebook, Instagram, Xplatform
Documents	ProfileImage, IdImage, PassportImage
Status	RegistrationDate, Suspended

MemberDTO

Namespace	Domain.DTOs
Purpose	Lightweight data transfer object for reports and APIs.

DTO Fields

Field	Description
Code	Member code
FullNameAr	Arabic name
FullNameEn	English name
NationalityId	Nationality reference
IdNumber	ID number
DateOfBirth	Birth date
Age	Calculated age

Member ViewModels

ViewModel	Purpose
MemberVM	Main Add/Edit member model with validation.
MemberCoursesVM	Paginated member course container.

MemberVM Sections

Section	Included Data
Basic	Names, Gender, Nationality, DOB, Age
Contact	Phones, Address, City
Education	Qualification, Institution
Security	Email, Password, ConfirmPassword
Files	Profile, ID, Passport uploads
Status	RegistrationDate, Suspended

Member Index & ListPartial

Feature	Description
Filtering	Search, Gender, Nationality, Registration Date
Pagination	AJAX paging with page size control
Permissions	Edit, Suspend, Delete per role
Indicators	ID expired & expiring badges
Exports	Excel & Print with filters
