Balance	decimal(18,2)?	Balance after

CashDisbursementVoucherController

Attributes

Attribute	Description
[AdminAuthorize]	Restricts access to admin users
[Area("Admin")]	Defines Admin routing scope

Dependencies

Dependency	Purpose
ICashDisbursementVoucherService	Business logic for CDV
IMapper	Entity ↔ ViewModel mapping
IHubContext	SignalR real-time notifications
INotificationService	Role-based notifications
IHttpContextAccessor	Session & HTTP context
UserManager	User and role management

Core Actions

Action	Description
Index	List CDVs with search, date filters & pagination
AddEdit (GET)	Load Add/Edit CDV form with enum values
AddEdit (POST)	Create or update CDV and send notifications
Delete	Delete CDV record
ExchangeProof	Add/Edit exchange proof with OTP validation
AcknowledgmentReceipt	Add/Edit acknowledgment receipt
Print	Generate printable CDV list
createExcelReport_Download	Export CDVs to Excel (AR/EN)
UploadCashDisbursementVoucherFiles	Upload and manage attachments

OTP Workflow

Step	Behavior
1	On add, notify Activity Monitor
2	First OTP sign locks edit except Manager
3	Notify Manager and open OTP
4	Manager edit resets first signature
5	Manager OTP validation locks all editing and enables printing
6	After first sign, delete is disabled

Dependencies

Dependency	Purpose
IUnitOfWork	Transactional database access
IHttpContextAccessor	Access HTTP context
ISMSService	Send SMS notifications
ISMSForSendingOTPService	Send OTP codes

CDV Operations

Method	Description
GetAllAsync	Retrieve all CDVs
GetByIdAsync	Get CDV with details & signatures
AddAsync	Create new CDV
UpdateAsync	Update CDV and child entities
DeleteAsync	Delete CDV and related data

Exchange Proof Operations

Method	Description
GetExchangeProofByIdAsync	Get exchange proof with details
AddAsync	Add exchange proof
UpdateAsync	Replace exchange proof details

Acknowledgment Receipt Operations

Method	Description
GetAcknowledgmentReceiptByIdAsync	Retrieve receipt
AddAsync	Create receipt
UpdateAsync	Update receipt
